SUPPORTING K-12 SCHOOL EMERGENCY MANAGEMENT

Our nation's K-12 schools and school districts are entrusted to provide a safe and healthy learning environment for students and staff. Faced with emergencies ranging from active shooter situations to fires, tornadoes, floods, hurricanes, earthquakes, and pandemic influenza, this is no easy task. Many of these emergencies occur with little to no warning. It is critical for all schools and school districts—public and non-public, large and small, rural and urban—to plan ahead to help ensure the safety and general welfare of all members of their school community.

What is the REMS TA Center?

The U.S. Department of Education (ED), Office of Safe and Healthy Students (OSHS) administers the REMS TA Center to serve as a hub of information and services. We support K-12 schools, school districts, and their community partners in the development of high-quality emergency operations plans (EOPs) and the implementation of comprehensive emergency management planning efforts.
